Instructional Science **27:** 487–489, 1999.

CONTENTS of Volume 27 1999

Volume 27 Nos. 1–2

Special Issue
Didactics in the Francophone world

Guest Editor
François Victor Tochon

Kampeas, Rina: A note from the Translator/Reviser 1–4

Chevallard, Yves: *Didactique?* ~~Is it a *plaisanterie*~~? You must be joking! A critical comment on terminology 5–7

Tochon, François Victor: Semiotic foundations for building the New Didactics: An introduction to the prototype features of the discipline 9–32

Bertrand, Yves & Houssaye, Jean: *Pédagogie* and *didactique*: An incestuous relationship 33–51

Colomb, Jacques: School knowledge and didactic analysis: A research perspective in comparative didactics 53–71

Martel, Angéline: Culturally colored didactics: The sociopolitical at the heart of second/foreign language teaching in Francophone geolinguistic spaces 73–96

Audigier, François: School disciplines, social representations, and the construction of the didactics of history, geography, and civics 97–117

Fournier, Jean-Marie & Veck, Bernard: Didactics and the culture of school disciplines: The case of French language arts as taught in France 119–145

David, Bernard, Bouthier, Daniel, Marsenach, Jackie & Durey, Alain: French research into the didactics and technology of physical activities and sports: An expanding new field 147–163

Lacotte, Jacqueline & Lenoir, Yves: Didactics and professional practice in preservice teacher education: A comparison of the situations in France and Québec 165–192

Guidelines for authors 193–196

Volume 27 Nos. 3–4

Special Issue
Analyzing User-System Interaction

Guest Editors
Jean-François Rouet, Pierre Dillenbourg,
Karl Steffens & Herre van Oostendorp

Rouet, Jean-François, Dillenbourg, Pierre, Steffens, Karl & Van Oostendorp, Herre: Introduction 197–199

Rouet, Jean-François & Passerault, Jean-Michel: Analyzing learner-hypermedia interaction: An overview of online methods 201–219

Lacroix, Natasha: Macrostructure construction and organization in the processing of multiple text passages 221–233

Goldman, Susan R., Zech, Linda K., Biswas, Gautam, Noser, Tom & The Cognition and Technology Group at Vanderbilt: Computer technology and complex problem solving: Issues in the study of complex cognitive activity 235–268

Van Oostendorp, Herre & De Mul, Sjaak: Learning by exploration: Thinking aloud while exploring an information system 269–284

De Vries, Erica & De Jong, Ton: The design and evaluation of hypertext structures for supporting design problem solving 285–302

Balcytiene, Aukse: Exploring individual processes of knowledge construction with hypertext 303–328

Volume 27 No. 5

Naidu, Som & Oliver, Mary: Critical incident-based computer supported collaborative learning 329–354

Sadler-Smith, Eugene & Riding, Richard: Cognitive style and instructional preferences 355–371

Kiewra, Kenneth A., Kauffman, Douglas F., Robinson, Daniel H., DuBois, Nelson F. & Staley, Richard K.: Supplementing floundering text with adjunct displays 373–401

Volume 27 No. 6

Conlon, Tom: Alternatives to rules for knowledge-based modelling 403–430

Cox, Richard, McKendree, Jean, Tobin, Richard, Lee, John & Mayes, Terry: *Vicarious learning from dialogue and discourse* *431–458*

Stellingwerf, Berend P. & Van Lieshout, Ernest C.D.M.: Manipulatives and number sentences in computer aided arithmetic word problem solving 459–476
